PROFESSIONAL SUMMARY

A computer science graduate from the University of Venda with hands-on experience developing full-stack web applications through academic, personal, and freelance projects. Skilled in front-end and back-end development, database integration, and translating client needs into functional digital solutions. A strong problem solver with a passion for building real-world software and a solid grounding in databases and statistics. Currently pursuing Honours in Computer Science, demonstrating commitment to continuous learning and technical growth.

EDUCATION

BSc Honours in Computer Science | University of Limpopo, Polokwane *2026 – Present*

- Research focus: The development of an isiNdebele text classification model, involving dataset collection, preprocessing, and data analysis
- Modules: Computer Networks, Advanced Database, Operating Systems, Advanced Software Engineering

Bachelor of Science in Computer Science | University of Venda, Thohoyandou *2023 – 2025*

- Completed undergraduate degree with a focus on software development, databases, and systems
- Key modules: Data Structures, Algorithms, OOP, Database Management Systems, Big Data & Business Intelligence, Statistics, Web Development

EXPERIENCE

Freelance Web Developer | Self-Employed *2026 – Present*

- Design and develop responsive websites and web applications for clients
- Deliver end-to-end solutions including UI design, front-end development, and back-end integration
- Apply problem-solving skills to understand client needs and translate them into functional digital solutions
- Manage project timelines, client communication, and deliverables independently

PROJECTS

AAA POPA PRIZE (Promotional Website) | popd.co.za

- Designed and developed a full promotional website for a live entertainment luck game brand
- Built interactive features including a live countdown timer, prize showcase, winners section, and SMS entry instructions
- Implemented animated UI elements, hover effects, and mobile-first responsive design for cross-device compatibility
- Documented the project with a full System Requirements Specification (SRS) covering functional and non-functional requirements
- Technologies: HTML, CSS, JavaScript

Monatte Chicken & Steak (Online Ordering System – Team Project) | github.com/Phathu-Lidzhade/monate-website

- Collaborated with a team of developers to build a full-stack online food ordering system for browsing menus and placing customer orders
- Designed the MySQL database schema and implemented back-end logic for order handling, menu management, and data operations
- Technologies: HTML, CSS, JavaScript, PHP, MySQL

TECHNICAL SKILLS

Programming:	Python, Java
Web:	HTML, CSS, JavaScript, PHP
Databases:	MySQL, MongoDB
Core:	Data Structures, Algorithms, OOP, REST APIs, Debugging
Tools:	Git, GitHub, VS Code
Soft Skills:	Problem-Solving, Adaptability, Communication, Team Collaboration, Self-Management

CERTIFICATIONS

- Codsoft Java Developer Certificate (Online Course) — 2024

LANGUAGES

- English — Fluent
- Tshivenda — Fluent (Home Language)
